

Report Missing Street Name Signs

Street Name Signs are a vital tool for our Fire, Ambulance, Police and Department of Public Works Responders in times of emergency. While the Bushkill Township Department of Public Works regular full time employees know all of our roads, we do employ seasonal and part-time persons who are not as familiar with every road in the Township. The emergency responders, especially our volunteers, do not travel all of the roads in their jurisdiction on a daily basis and rely heavily on Street Name Signs to find locations of emergencies.

If you have an emergency, seconds count. If a street is not clearly posted with a Street Name Sign, response could be delayed. Help us ensure that this does not happen. If you know of a street name sign that is missing, please contact the Township Office at [610-759-2758](tel:610-759-2758) to report it. We will be sure to replace missing Township signs as quickly as possible. In addition, we will notify those responsible for private road signs of the missing sign and the need to replace it in a timely fashion.

If you see Township Street Name Signs, or any other Township property, in a location it should not be, please call us. We can make sure the items are returned to their proper location. Report any vandalism of Township property to the Pennsylvania State Police and the Township. Keep in mind that all missing Township property needs to be replaced. By reporting property you see, it will save your tax dollars by relocating the “misplaced” items rather than having to purchase new.
