

■ PROTECT OUR WATERSHED ■

SPRING TIPS

CLEAR

Uncover and clean catch basins, drains, gutters, and downspouts to help avoid flooding.

PLANT

Plant trees, native plants, and ground cover to soak up spring rains and provide food and habitat for pollinators.

PROTECT

Move stored chemicals, such as salt, fertilizers, and pesticides to high areas where potential flooding cannot reach.

MAINTAIN

Inspect and pump septic tanks and make sure your sump pump is working properly. Install a water alarm in basement in case of flooding.

DISPOSE

Dispose of any household chemicals left over from spring cleaning or yard work at a local recycling event or a Northampton County recycling and disposal location.

PICK UP

Pick up pet waste and dispose in a trash receptacle.
